EpicCare Link Remote Monitoring Verification Reminder for Site Administrators:

This reminder applies to those of you that serve as a Site Administrator for EpicCare Link use by external monitors. Please note, EpicCare Link requires Site Verification to be performed by Research Site Administrators in the months of **February, May, August** and **November**. The Site Verification begins on the 1st of the month and ends on the 28th of the month at which time a report is automatically generated of the sites that have not completed Site Verification and sent to the Epic Security Team for accounts to be blocked. It is required that Research Site Administrators complete this practice by logging into link.uchealth.com to verify. Failure to complete Site Verification could result in the loss of access to EpicCare Link for external users and both EpicCare Link and Epic Hyperspace for Research Site Administrators.

Please reach out to UCH-EPIC-CARE-LINK@uchealth.com with any questions or concerns.

OCR Team Announcements:

Heidi Rowles and Devon Sanford joined the UC Health Office of Clinical Research team in February 2021 as Clinical Research Contract Administrators. Please join our team in welcoming Heidi and Devon to the UC Health family!

Ashley Kirkpatrick and Dyan Perry, Clinical Research Contract Administrators, accepted opportunities outside of UC Health as of February 2021. We wish Ashley and Dyan the best in their new endeavors!

The OCR thanks you, the research community in advance for your patience and understanding while we conduct our job search for a [Clinical Research Access /Approvals Administrator](#) and a [Clinical Research Manager](#) to work with our team. Please share these job postings if you know of any interested parties or reach out to Maria Stivers at Maria.Stivers@uchealth.com for more information.

Research Billable Items in UC Health Research Approval Submissions:

When submitting for UC Health research approval, please only select that a study has no research billable items if you are certain that there are no items that need to bill to a research account. Choosing this option will result in any charge associated with an encounter linked to your study being billed to the patient/third-party payer.

For more information, please refer to the following SOP:

UCH-OCR-REV-SOP-002-06: Submission Process for UC Health Research Approval

All UC Health policies and SOPs, including all Office of Clinical Research SOPs and policies are accessible from the UC Health intranet home page utilizing the Compliance 360 policy portal search function. Please reach out to Research-Admin@uchealth.com with any questions or concerns.

Coverage Analysis Drafts:

Please review your coverage analysis drafts, and ensure that the "items description" matches what you expect from the study protocol and that "S" (study billed) items match what you expect as well.

The MCA/CA informs the research encounter form, and will, later on, inform PRL (billing calendar) builds in Epic. The CPT codes for the billing items in this draft will be the same codes used in the research billing review, and potentially on invoices for the study. Please reach out to Research-Finance@uchealth.com with any questions or concerns.

University of Cincinnati RESEARCH + INNOVATION WEEK:

UC's Research + Innovation Week is a week-long celebration of disruptive ideas, applied solutions, and the real-world impacts that UC research, scholarship, and creative activities have on Cincinnati, the region, and beyond. The theme of this year's Research + Innovation Week is Digital Futures.
