Content List:

- Studies of the Month
- Upcoming Events
- OCR Renaming Contest: The Winners!
- OCR Team Announcements
- Promote Your Clinical Trials with the High Enroll Mobile App
- New CDA Process
- New Studies to be Submitted to UC's Greenhire System
- Bioethics, Citizen Science, & Human Subject Protection Conference
- Resources For Our Research Community
- Updated Contact List

Studies of the Month:

Binge Eating Disorder Study

For Participants with Obesity

What

The purpose of this research study is to learn more about binge eating disorder (BED). Participants will be asked to come in for 8 visits over 8 weeks. Participants will be asked to wear an activity monitoring watch and provide saliva samples. They will also be randomly assigned to an individualized intervention (morning light and/or nightly melatonin or placebo) in the final four weeks of the study.

Who

Adults age 18-50, currently with obesity and experiencing binge eating disorder symptoms.

Pay

Eligible participants will be paid up to \$440.

Details

For more information, contact Brian or George at (513) 536-0707 or visit www.LCOH.info and fill out a pre-screen questionnaire. Located at the Lindner Center of HOPE in Mason, Ohio.

13-21 IRB # 2020-0345

Systemic Lupus With Hair Loss or Skin Involvement Study for Adults 18 to 45 Years Old

What

A study to evaluate the safety, tolerability and effectiveness of an investigational drug, tofacitinib, to see if it helps young adults who have skin lesions associated with lupus, also known as systemic lupus erythematosus-cutaneous lesions (SLE-CL)

Who

Adults 18 to 45 years old who have systemic lupus with hair loss or skin involvement

Pay

Up to \$730 for their time and effort to complete the study

Upcoming Events:

First Friday:

Due to the upcoming holiday, the September First Friday session has been canceled.

September Clinical Research Orientation and

Training (CRO&T): 9/9/2021

9:00 am - 2:30 pm

Virtual Meeting

Lunch & Learn: 9/16/2021

12:00 - 1:00 pm

Virtual Meeting

Clinical Trial (Medicare) Coverage Analysis

Clinical Research

Managers Meeting: 9/24/2021

9:30 - 10:30 am

Virtual Meeting

OCR Renaming Contest: The Winners!

The Office of Clinical Research naming contest has concluded and the results are in. With a landslide victory, the new name for the office will be the "UC Office of Clinical Research". The unofficial name will be "The Chamber of Clinical Research" or "The Chamber" for short. Harry Potter fans edged out a few other highly creative names. Congratulations to our winners Abby Daniels and Miranda Gulasy. The UC OCR thanks everyone for their participation in the renaming contest!

OCR Team Announcements:

Sheree Sims joined the Office of Clinical Research team on July 26, 2021. Once she completes her training, she will be responsible for the Research Approval and Access processes. Please join our team in welcoming Sheree!

Promote Your Clinical Trials with the High Enroll Mobile App:

Have you ever wanted to share information about a study with a colleague? Would it be helpful for all the clinicians to have information about your clinical trials available at their fingertips? Have you ever wanted to discuss research participation with a patient, but didn't have the necessary study information to do so? Have you identified a potential research patient who might qualify for a study, but you couldn't easily contact the right research coordinator? High Enroll, a mobile app, is available to solve recruitment problems such as these. This tool allows your entire recruiting portfolio of studies to always be updated and available on the phone of everyone who is involved in patient care. A summary, inclusion and exclusion criteria, other pertinent study information, and a "one-touch" contact button for the primary research coordinator is available for each study loaded onto the platform.

The app is available for any healthcare provider to download by scanning the QR code below or by searching High Enroll, LLC on the App Store or Google Play.

For more information on how to get your studies on the app, please reach out to Ginger Conway at 859-992-5339 or gaconway@highenroll.org.

New CDA Process:

All new CDAs should be sent to Geoffrey Pinski's team at UC-MTA@ucmail.uc.edu. All submitted CDAs will require either [a completed A910c](#) or the following minimal information in the email request:

1. UC Principal investigator
2. Name of company (if we are being asked to draft the agreement – the company's address or a place to get their address)
3. Topic of discussion/technology
4. Contact at the company to send any requests related to the agreement
5. Any other people that should be copied on the conversation

For more information, please contact UC-MTA@ucmail.uc.edu.

New Studies to be Submitted to UC's Greenphire System:

As of July 1st 2021, the Office of Clinical Research has administratively moved from UC Health to UC's College of Medicine. Clinical research studies will now be contracted through the University of Cincinnati. Due to this change, new studies will need to be set up in UC's Greenphire system. Study teams will follow the same process they are used to when setting up a study in UC's Greenphire system. For more information, visit [Research How 2](#) and search "Greenphire," or contact GreenphireClinCard@ucmail.uc.edu.

Studies contracted through UC Health will continue to be maintained in UC Health's Greenphire system for the life of the study. Study teams will continue to be able to order ClinCards for their UC Health studies. You can access the [UC Health Greenphire request link](#) here.

[Click here to submit questions regarding the OCR move](#)

Bioethics, Citizen Science, & Human Subject Protection Conference:

The 2021 Bioethics, Citizen Science, & Human Subject Protection Conference will be held virtually from September 8-12. This conference is co-sponsored by Advarra, Cincinnati Children's, Northern Kentucky University, the University of Cincinnati, and the University of Kentucky. This year's conference will address issues of significant importance to human subject protections and bioethics, including:

- Ethics of engaging patients in research
- Considerations of a research participant and caregiver
- Citizen science and how it fits with traditional research
- Regulatory updates including practical guidance on the Common Rule
- Conducting reviews on emergent health issues/outbreaks

Click here for more information. Please call 513-761-4100 or email hspconference@advarra.com with any questions.

Resources For Our Research Community:

OCR SharePoint Site

The Office of Clinical Research now has an active SharePoint site. The goal of this site is to serve as a centralized resource for research professionals to access helpful information that can support your research studies.

Please keep in mind that this SharePoint site is hosted on the UC Health network. If you are using a web browser that is logged into a University of Cincinnati or Children's Hospital Office 365 account, when you click this link, you will get an error message. To prevent this, you will either need to log out of Office 365 and click the link again to log in with your UC Health credentials, or you will need to use a different web browser, copy and paste the link, and log in with your UC Health credentials in order to access this SharePoint site.

Your UC Health log in credentials is comprised of your user ID number followed by @uchealth.com (ex: uid#####@uchealth.com).

It is suggested that you bookmark this link in the browser of your choice so that you can remain signed in with your UC Health credentials and you can come back and reference this site at any time.

[Click here to visit the OCR SharePoint site.](#)

Access and Authorizations: Updated Appendix A

Click here for an updated [Appendix A](#) for the Access and Authorizations process. [Appendix B](#) and [Appendix D](#) remain the same. The process continues to be the same, but all researchers, volunteer or paid, should use the newly updated Appendix A. Please reach out to Research-Credential@uchealth.com with any questions.

GreenPhire ClinCard Training Video

Greenphire has developed a [ClinCard Training Video](#) for new users. The video link will be added to the REDCap request form as well as the OCR SharePoint site. We hope this video will be helpful when onboarding new users and serve as a valuable resource for current users. If you have any questions, please contact UCH-Greenphire@uchealth.com.

CCTST Online Educational Library, CTROnline

[CTRonline](#) offers an array of clinical and translational research training modules and event recordings. All videos are free and open to any learner looking for a brief introduction to (or a refresher on) specific research topics.

ResearchMatch Online Training
Thursday, September 9, 2021
2:00-3:00 PM

ResearchMatch offers free, online training for anyone in the research community interested in learning how to use ResearchMatch as a recruitment tool. This training will teach you how to get started and will share tips for ensuring that your experience with ResearchMatch is successful, including defining your demographics and key terms.

Register here: [ResearchMatch Researcher Training](#).

UCH Research Approval: Nate Harris (Research-Admin@uchealth.com)
EPI C Research Tools: Zak Johnson (Research-Admin@uchealth.com) & Miranda Gulasy (Miranda.Gulasy@uchealth.com)
Marketing: Miranda Gulasy (Miranda.Gulasy@uchealth.com)
Compliance Administration: Nate Harris (Nate.Harris@uchealth.com)
Training and Education: Nate Harris (Nate.Harris@uchealth.com)

Join the Mailing List:

We have moved our mailing list to an electronic system. New staff or faculty that wish to join the mailing list can now click the button here or on the OCR website to join.

If you received this newsletter, you are already on the list. No need to re-join, but we encourage you to share with your colleagues, especially those new to UC Health and UC.

Sign up to receive communications from the UC Health Office of Clinical Research on the topics of new SOPs, education sessions, news, events and information geared towards the UC/UCH Research Professionals community.
